

# Web Dev 1

## Weekly Project Report – Week 3

Please provide a brief overview of the research or tasks that were completed on your project this week. (This should take no longer than 10 minutes to complete):

This week I got started on some of my linked pages, as well as further developing my home page. I embedded some videos onto my website and altered the text and information on it. I added some H1 tags as well as section tags, and played around with containers which didn't really work out.
