

# Web Dev 1

## Weekly Project Report – Week 1

Please provide a brief overview of the research or tasks that were completed on your project this week. (This should take no longer than 10 minutes to complete):

Website Topic Ideas : **Football**, Gaming, Coding guide, clothing store

- I've chosen to make my website about **football** as it is a hobby of mine.
- I am planning to include a lot of useful information on the topic and make an aesthetically pleasing, information-based website.
- My inspiration comes from the Man Utd website, as well as other football-orientated websites such as the UEFA Champions League one.
- The layout of the website will be planned in a way that I can include a news page, a statistics page, a videos page, as well as history and information about the club or competition.
- I also believe that making a website about football will play to my strengths as I have a decent knowledge of it to begin with, and as someone who uses websites similar to the one I want to create, I know what I'm looking for from a consumer / user point of view.
