Web Dev 1

Weekly Project Report – Week 2

Please provide a brief overview of the research or tasks that were completed on your project this week. (This should take no longer than 10 minutes to complete):

During my research for this week, I looked for websites I can use as inspiration for mine.

• https://www.uefa.com/uefachampionsleague/

      This is the official UEFA website. It has a lot of different links, such as a statistics page, a home page with information, a fixtures page, etc. It also has a very pleasing colour scheme for a football oriented website. I decided to use a similar colour scheme for my own site.

• https://www.ea.com/games/fifa/fifa-22

      This is the official website for EA, which is a platform that hosts and runs FIFA. FIFA is a football game with a lot of competitive and casual aspects. This is also something I'd like to incorporate into my own website so this will be very useful for inspiration. I added a gaming link in the navigation bar for my website, where I added a header with Fifa on it, and a div tag containing information about Fifa as a game. I then added some images with FIFA and the gaming side of football in general.
